Sector exposure

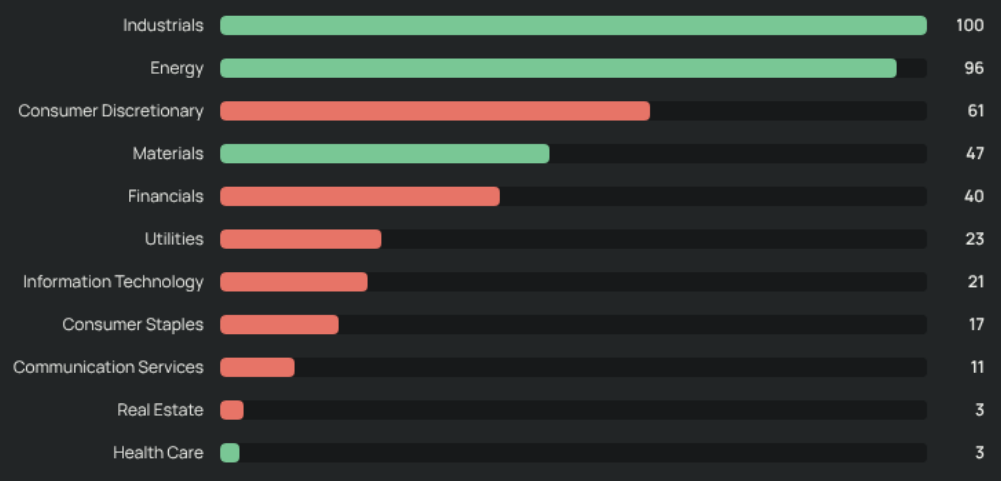

SECTOR & TICKER SENSITIVITY · 0–100

Where the conflict risk lands

How sensitive each S&P 500 sector is to today's conflict landscape, and whether the pressure is likely a tailwind or a headwind for prices. Tap a sector to filter tickers.

Exposure by sector

Tailwind · Headwind · Mixed

What's behind it

Leading drivers per sector

Industrials	Missile exchange across the Israel-Lebanon border · Tanker seized near the Strait of Hormuz	HIGH · TAILWIND
Energy	Tanker seized near the Strait of Hormuz · Missile exchange across the Israel-Lebanon border	HIGH · TAILWIND
Consumer Discretionary	Tanker seized near the Strait of Hormuz · Missile exchange across the Israel-Lebanon border	ELEVATED · HEADWIND
Materials	Tanker seized near the Strait of Hormuz · Missile exchange across the Israel-Lebanon border	ELEVATED · TAILWIND
Financials	Missile exchange across the Israel-Lebanon border · Artillery fire intensifies along the eastern front line	MODERATE · HEADWIND
Utilities	Tanker seized near the Strait of Hormuz · Missile exchange across the Israel-Lebanon border	MODERATE · HEADWIND
Information Technology	Large-scale naval and air drills around Taiwan · Ballistic missile test over the Sea of Japan	MODERATE · HEADWIND
Consumer Staples	Tanker seized near the Strait of Hormuz · Missile exchange across the Israel-Lebanon border	MODERATE · HEADWIND

CONFLICT → VOLATILITY HISTORY

How past conflicts moved the market

Index volatility before each episode versus its peak (or level after), for context and back-testing. Today's lead event is matched to its closest analogs.

CLOSEST MATCHES TO TODAY'S LEAD EVENT

"Tanker seized near the Strait of Hormuz"

Hamas attack on Israel 57%	Iraq invades Kuwait 57%	Iran strikes Israel with drones and missiles 53%
2023 · vol 17.5 → 21.7 · S&P -2.5%	1990 · vol 17.2 → 36.5 · S&P -15.9%	2024 · vol 14.9 → 19.2 · S&P -3.0%

Conflict episodes

12 episodes

NEWEST · BIGGEST MOVE · SEVERITY

ALL REGIONS · EAST ASIA · EASTERN EUROPE · MIDDLE EAST · NORTH AMERICA

Iran strikes Israel with drones and missiles MISSILE STRIKE
Apr 13, 2024 · Middle East
First direct strike from Iranian territory; volatility rose for a week before easing.
VOL 14.9 → 19.2 +4.3 pts · 5d TO PEAK · S&P -3.0%

Red Sea shipping attacks escalate MISSILE STRIKE
Dec 15, 2023 · Middle East
Major carriers rerouted around Africa; freight rates jumped but equity volatility stayed low.
VOL 12.3 → 13.9 +1.6 pts · 10d TO PEAK · S&P +1.0%

Hamas attack on Israel TERROR ATTACK
Oct 7, 2023 · Middle East
Oil rose and defense stocks rallied; volatility rose gradually, compounded by bond-market stress.
VOL 17.5 → 21.7 +4.2 pts · 9d TO PEAK · S&P -2.5%

Taiwan Strait live-fire drills MILITARY EXERCISE
Aug 4, 2022 · East Asia
Large drills followed a high-profile visit; semiconductor names wobbled but the index shrugged it off.
VOL 22.8 → 23.9 +1.1 pts · 2d TO PEAK · S&P +0.5%

Russia invades Ukraine INVASION
Feb 24, 2022 · Eastern Europe
Energy and commodity prices surged; volatility stayed elevated for weeks alongside rate-hike fears.
VOL 25.7 → 36.5 +10.8 pts · 7d TO PEAK · S&P -3.0%

Soleimani strike MISSILE STRIKE
Jan 3, 2020 · Middle East
A sharp one-day risk-off move that reversed after Iran's measured response.
VOL 12.5 → 14.0 +1.5 pts · 1d TO PEAK · S&P -0.7%

Abqaiq-Khurais drone attack DRONE STRIKE
Sep 14, 2019 · Middle East
Half of Saudi oil output went offline briefly; oil spiked about 15% but equity volatility barely moved.
VOL 13.7 → 15.9 +2.2 pts · 6d TO PEAK · S&P -0.3%

North Korea missile standoff MISSILE STRIKE
Aug 8, 2017 · East Asia
Escalating rhetoric lifted volatility from historic lows; the move faded within weeks.
VOL 10.0 → 16.0 +6.0 pts · 3d TO PEAK · S&P -1.5%

Crimea annexation INVASION
Mar 1, 2014 · Eastern Europe
A brief volatility spike; markets recovered within weeks as sanctions were limited.
VOL 14.0 → 17.8 +3.8 pts · 10d TO PEAK · S&P -2.0%

Iraq War begins INVASION
Mar 20, 2003 · Middle East
Volatility had peaked in the run-up; once the invasion began uncertainty resolved and volatility fell.
VOL 34.7 → 29.2 -5.5 pts · 5d TO PEAK · S&P +2.4%

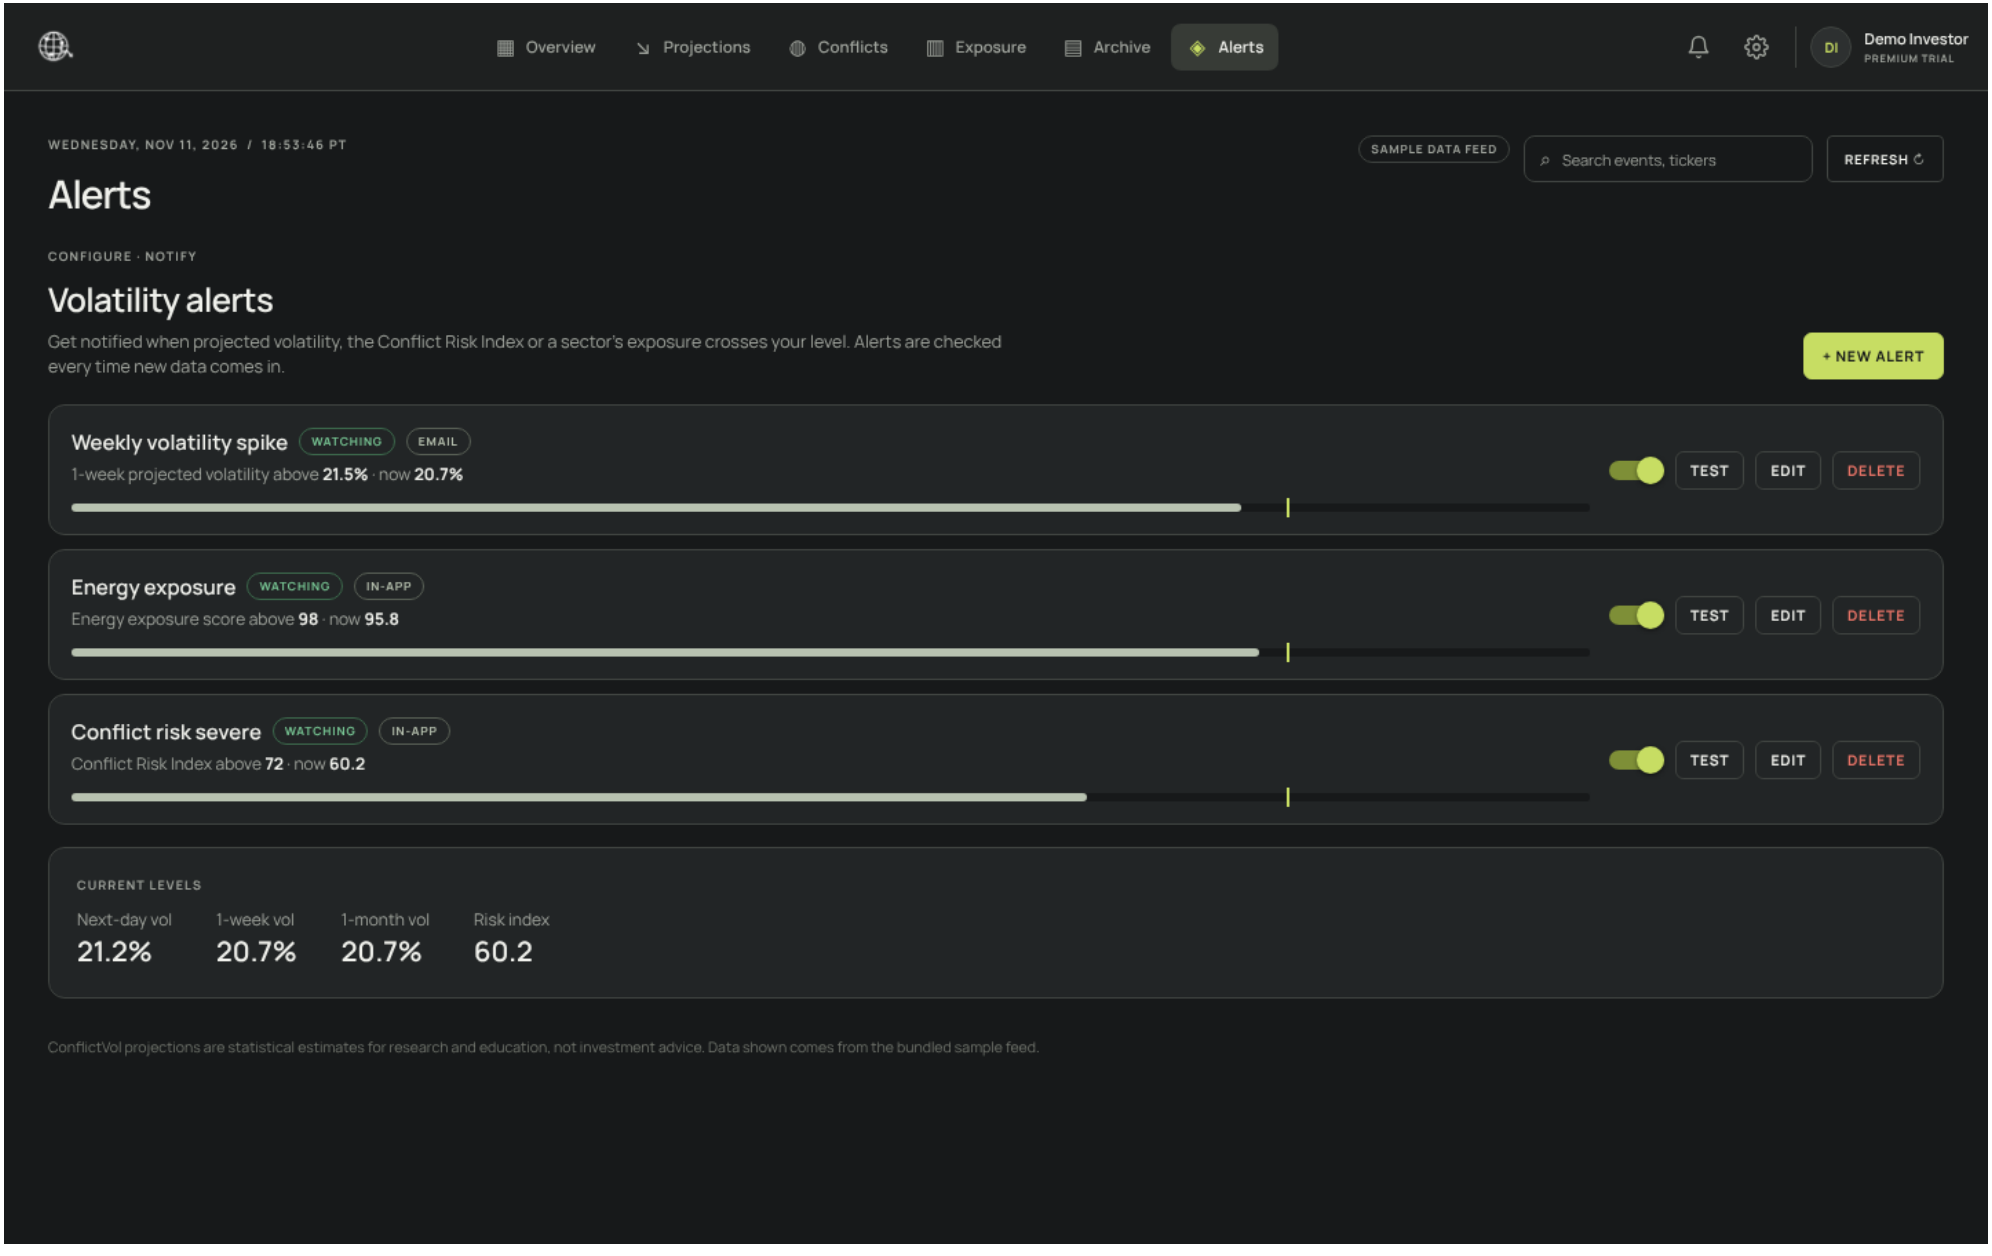

September 11 attacks TERROR ATTACK
Sep 11, 2001 · North America
Markets closed for four sessions; the index fell sharply on reopening before recovering by mid-October.
VOL 31.8 → 43.7 +11.9 pts · 4d TO PEAK · S&P -11.6%

Iraq invades Kuwait INVASION
Aug 2, 1990 · Middle East
Oil prices doubled within weeks and the index slid into a bear market by October.
VOL 17.2 → 36.5 +19.3 pts · 15d TO PEAK · S&P -15.9%

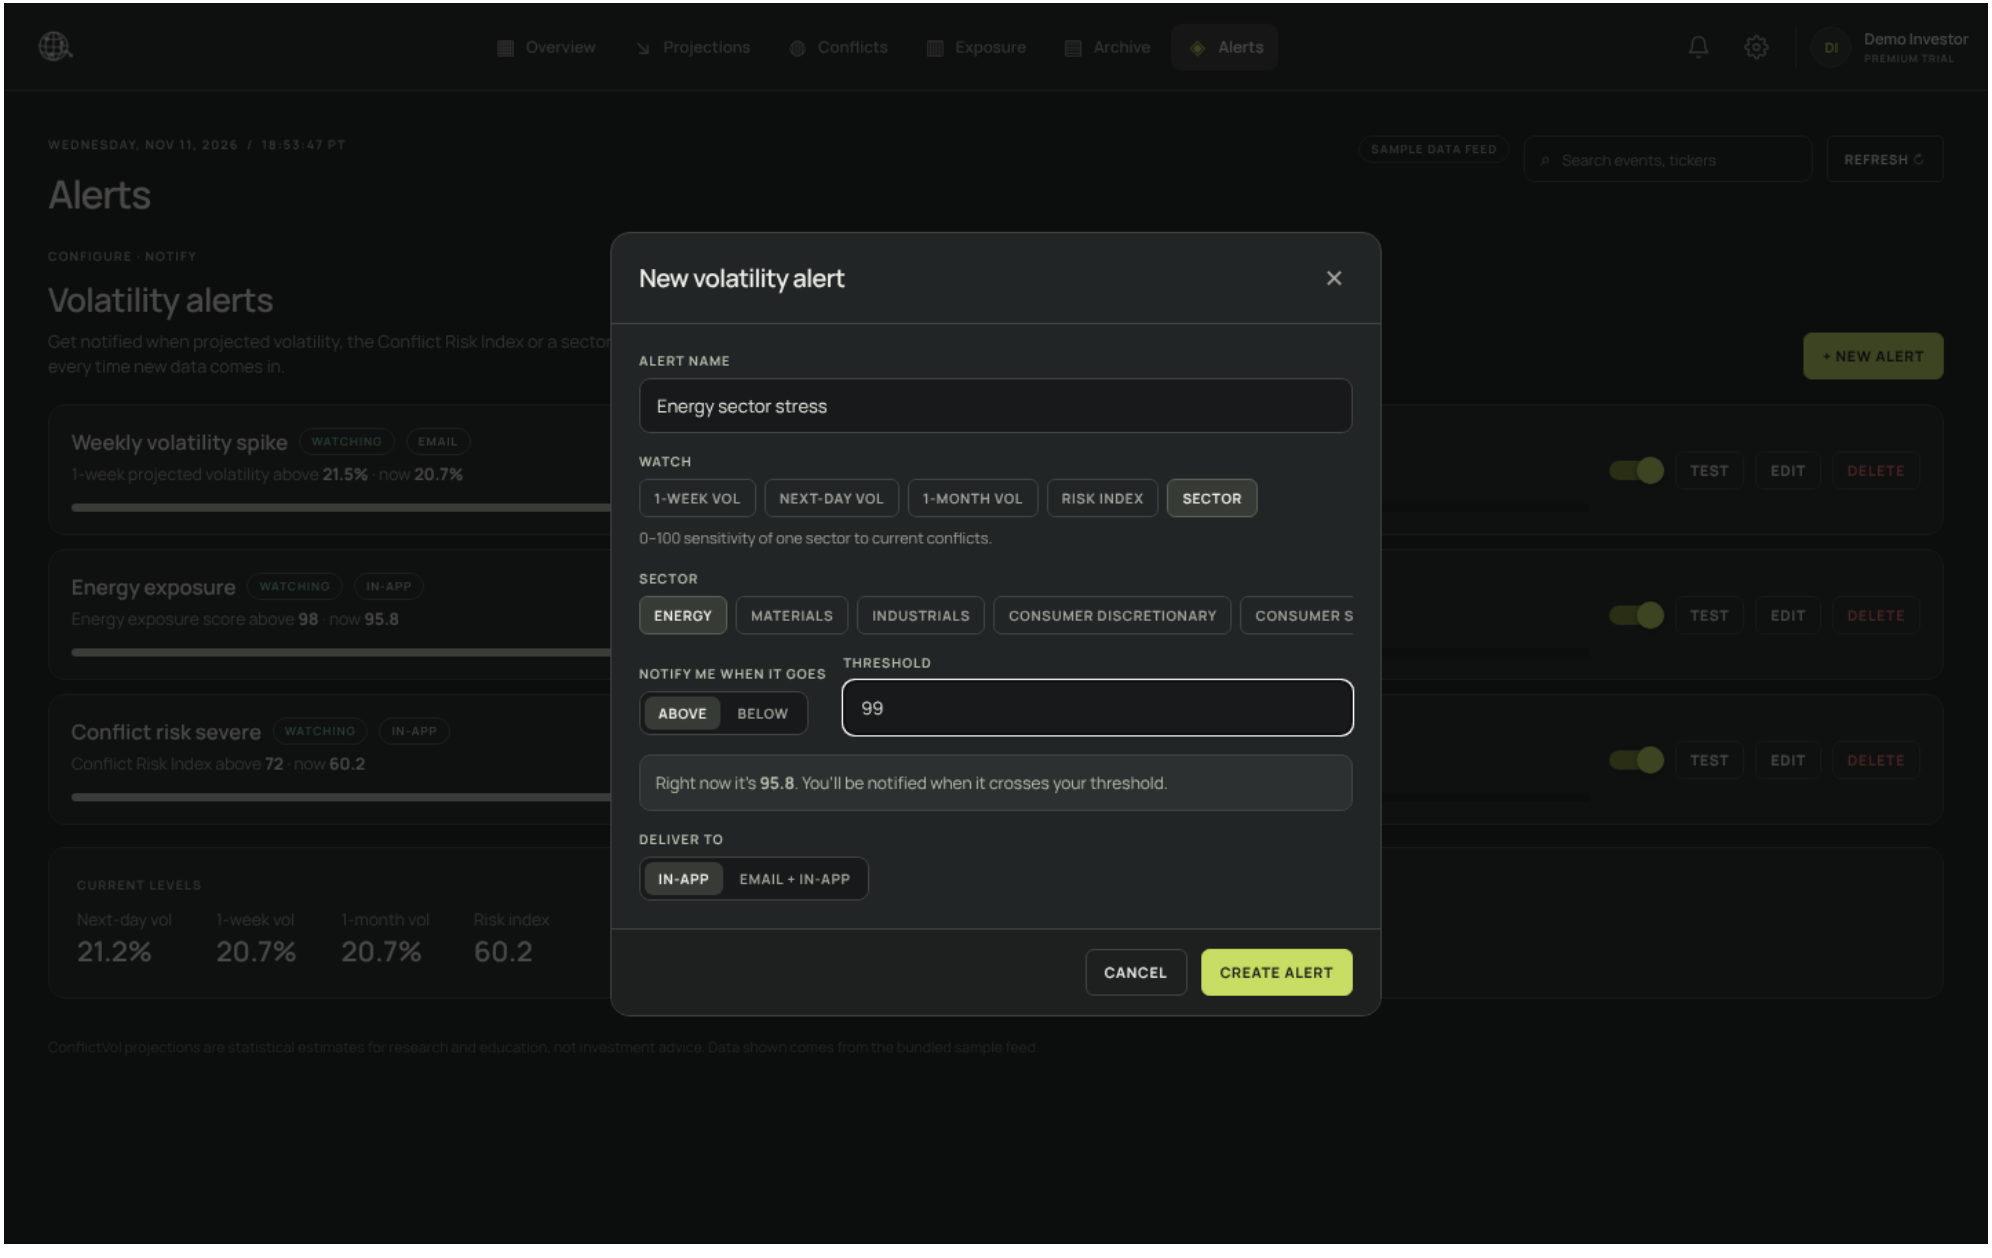

Historical figures are approximate (VIX-style index volatility) and shown for illustration.
